Overcoats

Distinctive in style and fabric—the result of expert designing and tailoring. Chinchillas, Vicunas, Cheviots, in walking and motoring lengths.

Gans-Rady Company

SOUTH BEST SPOT IN WHOLE WORLD FOR NEGRO RACE

(Continued From First Page.)

show the rest of the South the solution of the race problem.

Dr. Washington's Speech.

Major R. R. Moton, for twenty years commandant of the Hampton Normal and Agricultural Institute and president of the Negro Organization Society, presided and introduced the speakers. Dr. Washington was introduced by Maggie L. Walker, who paid a glowing tribute to his accomplishments for the uplift of his race. He said in part:

The negro race in Virginia is going forward, in my opinion, in all the fundamental and substantial things of life faster than he himself realizes, and faster than his white neighbor realizes. I say this notwithstanding there are many weaknesses and much still to be accomplished.

Virginia negroes have been fortunate for a number of years in having at the head of the government Governors with vision, liberality and courage. Governors and superintendents of education and other State officials who have considered the interests, prosperity and progress of all the people, regardless of race or color.

I have watched with the greatest satisfaction the interest which Governor Mann has shown in the education and uplift of all the people in Virginia. Governor Mann in the highest degree is a model executive because of the leadership and guidance of such State officials as you have that the negro in Virginia has gone forward as fast as he has.

Then, too, the negroes of Virginia are blessed with the leadership and guidance of such level-headed, conservative, unselfish and able colored men as Major R. R. Moton, the president of this organization, and dozens of others whose names I could call.

I have always noted the character of the colored race in any community or State, in part, by the character of the white people in that community or State.

Common Interests of Virginians.

The Negro Organization Society has for its object the unifying and focusing all the organizations among our people in Virginia on certain fundamental principles of life such as education, cleanliness. It is not the purpose of the Virginia Organization Society to seek to interfere with special work and purpose of each individual organization, but to co-operate with these organizations to promote education in its broadest sense, without regard to race, color or permanent prosperity. The work which it is doing under the general direction of Major R. R. Moton, Professor J. M. Gandy, of Petersburg, of Rev. A. A. Graham, of Phoenix, and of other equally interested and worthy of all praise and encouragement.

The work of this society is fundamental. It touches the heart of the interests of every white citizen in Virginia. I have watched the growth of this society with a great deal of interest, and believe that it is one of the most potent factors for our uplift. Here is a great example of co-operation. It is sometimes said that black people cannot get together and work for the general improvement of the community, but we have here an example of where negro organizations of every sort in a great city, with diverse interests, have been able to get together and co-operate for better homes, better morals and better health.

I am particularly pleased to know that this society is doing so much for the building of schools, the improvement of the negro race, and the value of \$10,000; that in one county you aided in raising \$900 for school improvement and the large amount of \$2,000,000 worth. There are many terms; also that a larger number of schools were inspired to make adequate provision for the education of individual drinking cups, sanitary surroundings, and in every way improve surroundings.

Morals and Health.

I am especially interested in the efforts that you are making for better morals among the negro people, and laying special emphasis upon the idea that parents should devote more time and thought to the moral training of their children; that they should inculcate in their offspring correct habits of morality.

One of the greatest things that you are doing is the improving of the health of the negro race. At the last meeting of the National Negro Business League, I was particularly interested in the report that your secretary, Professor John H. Gandy, gave concerning the health of the negro people. He said that you had on the 14th of last month, held a very successful symposium on the health of the negro people, and that the results of the symposium were that the negro people should be clean, and especially that they should be clean in their homes, in their bodies, and in their minds.

I was particularly interested in the efforts that you are making for better morals among the negro people, and laying special emphasis upon the idea that parents should devote more time and thought to the moral training of their children; that they should inculcate in their offspring correct habits of morality.

What is Education? It is the object of the organization under the leadership of Major Moton to help the colored people of Virginia to digest their education, to use it for the benefit of the race, and to show the object of education, the character of the negro people, without the saving habit, without the ingenuity to contribute his part toward the betterment of the race, and the best in the community, his mere book education in many cases means little or nothing.

The Next Step. It is the object of the organization under the leadership of Major Moton to help the colored people of Virginia to digest their education, to use it for the benefit of the race, and to show the object of education, the character of the negro people, without the saving habit, without the ingenuity to contribute his part toward the betterment of the race, and the best in the community, his mere book education in many cases means little or nothing.

In the foregoing remarks I have merely hinted at some of the instances of progress that have been made in this State. I have done so to show what can be done; but one must not get the idea that all the work is done. In Virginia, like other Southern States, we are just beginning to teach the negro how to make progress and the two races how to co-operate with each other.

Under the leadership of such men as Major Moton and such institutions as Hampton Institute, under the leadership of Dr. Hollis E. Friesell and others, we shall soon leave behind all doubt and uncertainty as to the future leadership of the two races here in the South.

Charged With Theft. Walter Anderson, colored, was arrested yesterday on a charge of stealing a watch and chain valued at \$10.00 from the store of Landrum Walker.

Paragraph Pulpit The Bible has many comforting views, ranging all the way from the declaration that the infallible word of God to the declaration that it is a book of cunningly devised fables. What can a modern man believe concerning the Bible? morning Unitarian Church to-morrow morning Rev. Alexander T. Bowser will speak on "The Bible: A Common Sense View of Its Authority and Use."—Unitarian Publicity Committee.—Advertisement.

PENSACOLA NAVAL BASE IMPORTANT

Assistant Secretary Roosevelt to Inspect Yard and Surroundings Next Week.

Washington, November 7.—Assistant Secretary Roosevelt of the Navy will go next week to Pensacola, Fla., to inspect the navy yard and surrounding reservation there with the view to the establishment of an advanced naval base. Experts who have investigated conditions at Pensacola have reported favorably on the site. Moreover, the board of inspectors for shore stations in its latest report now before Secretary Daniels, says Pensacola is the best and only site on the Gulf of Mexico for a naval station of the first class, and that such a station adequately protected is more desirable in peace and absolutely necessary in times of war.

For several years past the operations at the Pensacola yard have been hampered by the fact that the site is not a station of the first class, and that such a station adequately protected is more desirable in peace and absolutely necessary in times of war.

Before returning Mr. Roosevelt will visit the New Orleans yard. Although naval experts have reported favorably on the site, Mr. Daniels thinks it can be used in the event of a lighter draft vessel.

DEFENSE OPENS IN BEILISS TRIAL

Excitement Grows as Trial Nears End, and Tension Is Almost at Breaking Point.

Kiev, November 7.—The prosecution to-day finished its arguments for the conviction of Mendel Beiliss, on trial for the murder of Andrew Yukhnaki, and the opening address for the defense was made by M. Maklakow, a brother of the Minister of the Interior, Mr. Gosenberg, the only Jew among the counsel for Beiliss, was to have made the opening address, but at the last moment it was decided that Maklakow must have more effect upon the jury on account of his being a Christian.

The excitement is growing as the trial nears the close, and the tension has almost reached the breaking point.

All unbiased persons who have attended the trial are of the opinion that Beiliss should be acquitted, but there is considerable pessimism as to the outcome, many holding that Beiliss was convicted before he entered the courtroom.

In his opening remarks, Maklakow made a magnificent attempt to quench the fiercest flames of antisemitism, which was aroused by the prosecution. He maintained that Beiliss was completely innocent of the crime and said that the police would follow the trail laid bare during the trial. He would find sufficient evidence to set Beiliss free with-out a trial, and Vera Cherberayak would be placed in the dock.

A majority of those in the courtroom were in tears when the lawyer told the jury how Vera Cherberayak's little son refused with his dying breath to bear witness that his father had committed the crime.

Maklakow charged the Black Hundred with furthering the trial in an attempt to prove the Jews guilty of the crime, and he closed by saying:

"If you convict Beiliss you will not only be convicting Mendel Beiliss, the Jew, but you will be convicting and prostituting Russian justice."

M. Gosenberg followed Maklakow, and the former had not concluded when the trial adjourned at 11 o'clock to-night. The indictment should be read at the trial, and the jury should be given the case will be given to the jury Sunday afternoon.

Committee's Fall of Quorum. The Council Committee on Public Buildings, Properties and Utilities, and Dock, River and Harbor both failed to get business quorum last night. Councilmen Rogers and a number of interested citizens were on hand to urge a favorable report if the matter should be taken up.

GIVES WEEKLY LECTURES

Rev. David Francis Plans Educational Feature for Church Hill Folks.

Although disappointed by the nonarrival of his films, Rev. David Francis last night offered an acceptable substitute program at the second of his weekly illustrated lectures at East First Christian Church, Thirty-third and Clay Streets. "A Tale of the Day of Christ," an Edison film, was shown. Mr. Francis sang "Calvary." By special request he will repeat this to-morrow night at the regular service. His subject at that time will be "A Pilate's Judgment."

Dr. Francis has decided to hold an illustrated lecture and service each Friday night, and will select some interesting educational feature for each meeting. Next week he will lecture on "A Trip Through New Zealand." The talk and pictures will deal with the country and the native Maoris.

SCHOONER DISCHARGES CARGO. The Emma F. Angell Clears From Alexandria—School Attendance.

(Special to The Times-Dispatch.) Alexandria, Va., November 7.—The three-masted schooner Emma F. Angell, from Nova Scotia, which arrived at this port a week ago with a cargo of 1,000 tons of rock plaster, has discharged its cargo and secured clearance papers to-day. Officials from the Baltimore custom house were here during the unloading of the schooner, and they left yesterday evening.

Three Washington youths, who yesterday ran away from home, were picked up to-day by the police and subsequently returned to Washington, being taken home by Detective Messer, of Washington. The boys said they were going South. They gave the names of Raymond Hall, sixteen years old; Morris Johnson and Derrell Baneroff, fifteen years each.

More pupils are now attending the public schools than ever before since their establishment, according to the annual report of Captain W. H. Sweeney, superintendent of schools, submitted to the school board at its meeting last night. He gave the total number as 2,025.

The board was organized for the year with the re-election of these officers: Dr. W. M. Smith, chairman; P. M. Bradshaw, vice chairman, and Harry Kirk, clerk.

Large Tract of Henrico Property Sold. A large tract of property in Henrico County was transferred by R. H. Bruce, A. L. Adamson, Carroll H. Montague and John C. Easley to H. W. Goodwyn for \$32,500, according to a deed of bargain and sale placed on record yesterday in Henrico Circuit Court. The property fronts on the north line of Cary Street Road, running in an easterly direction from the Bolt Line Railroad. It embraces 12.13 acres.

The Care of the Government For the forests of the country will be graphically shown in Washington at the Fifth National Conservation Congress, on November 18, 19 and 20. The utilization of the great forests will be shown, with the native rangers and other men in charge of the practical management of the nation's woodlands, and they will explain the work and means of development of these great tracts.

The officers and employees of the National Banks can explain and show YOU the great advantage of Government Control in the financial affairs of the people. When YOU deposit YOUR MONEY with
